

About this form

This form is produced by the Human Fertilisation and Embryology Authority (HFEA), the UK's independent regulator of fertility treatment and human embryo research. For more information about us, visit www.hfea.gov.uk.

Who should fill in this form?

Fill in this form if you are a man or a woman commissioning a surrogacy arrangement and you wish to be nominated as the other legal parent of the child, together with your surrogate. You may be:

- an **intended father who is not the biological father** – for example an intended father using donor sperm (or embryos created outside the body (in vitro) using donor sperm) or the male partner of the biological father, or
- an **intended female parent**.

Who should not fill in this form?

You should not complete this form if:

- the surrogate is married or in a civil partnership and her spouse or civil partner consents to the treatment (the surrogate's spouse or civil partner will be the other legal parent)
- you are the biological father (since in common law you will automatically be the legal parent if the surrogate is not married or in a civil partnership and no-one else has been nominated as a parent).

What do I need to know before filling in this form?

Before filling in this form you should be certain that your clinic has given you all the relevant information you need to make fully informed decisions. This includes:

- information about:
 - the different options set out in this form
 - the implications of giving your consent
 - the consequences of withdrawing this consent, and

- how you can make changes to, or withdraw, your consent.
- an opportunity to have counselling.

If you are unsure, or think that you have not been given all of this information, please speak to your clinic. There is a declaration at the end of this form which you must sign to confirm you have received this information. If you do not receive this information before filling in this form, your consent may be invalid.

You are strongly advised to seek your own legal advice before entering into a surrogacy arrangement.

If you are unable to complete this form because of physical illness, injury or disability, you may direct someone else to complete and sign it for you. However, if you are consenting to being registered as the legal parent of any child born as a result of treatment after your death (see section 4.1), you must sign the form yourself.

Why do I have to fill in this form?

The surrogate will be the legal mother of any child born from the surrogacy treatment when the child is born.

By law (the Human Fertilisation and Embryology Act 2008), someone other than the biological father can be nominated as the second legal parent of any child born from the treatment – as long as both the nominated parent and the surrogate give notices consenting to this in writing before sperm, egg or embryo transfer.

When filling in this form, make sure you sign the declaration on every page to confirm that you have read the page and fully agree with the consent and information given. When you have completed the form you may request a copy of it from your clinic.

3 Your notice of consent to being the legal parent

3.1 Please tick the box next to the statement below to confirm your consent.

I consent to being the legal parent of any child born from the surrogate's treatment (named in section two).

4 In the event of your death

You may also wish to decide whether, in the event of your death, you would like to be registered as the legal parent of any child born from surrogacy treatment (with embryos created before your death and provided to the surrogate after your death).

Please note that the law concerning posthumous conception and surrogacy is complex and if you are registered as the legal parent after your death, it may not be straightforward for your surviving partner to pursue a surrogacy arrangement.

4 In the event of your death *continued*

4.1 Do you consent to embryos created before your death being transferred to your surrogate after your death, and to being registered as the legal parent of any child born from your surrogate’s treatment after your death (ie, posthumous birth registration)?

By ticking yes, you consent to the following:

- I consent to my name, place of birth and occupation being entered on the register of births as the legal parent of any child born from the surrogate’s treatment.

The register is kept under the Birth and Deaths Registration Act 1953, or the Births and Deaths Registration (Northern Ireland) Order 1976, or the Registration of Births, Deaths and Marriages (Scotland) Act 1965.

- I also consent to my information (relating to the surrogate’s treatment) being disclosed to one of the following registrars:
 - the Registrar General for England and Wales
 - the Registrar General for Scotland
 - the Registrar for Northern Ireland.

Please note that being recorded in the register of births as the legal parent of a child born from the surrogate’s treatment does not transfer any inheritance or other legal rights to the child.
